PROFESSIONAL SUMMARY

Artificial Intelligence & Data Science student with foundational knowledge of Python, SQL, Machine Learning, and AI. Hands-on experience through academic projects involving intrusion detection and shelf inventory management. Eager to apply technical skills to real-world problems and grow in a professional environment.

SKILLS

Languages: Python, SQL
Databases: MySQL, Supabase
Tools & Technologies: Git, GitHub, VS Code, Jupyter Notebook

EDUCATION

Bachelor of Engineering (B.E), Artificial Intelligence & Data Science **2023 – 2027**
Bearys Institute of Technology | CGPA: 8.06

PUC (XII) – PCMB, Kerala State Board **March 2023**
GHSS Kumbla | Percentage: 89.5%

SSLC (X), Kerala State Board **July 2021**
GHSS Kumbla | Percentage: 90%

PROJECTS

Intrusion Detection System | Python, TensorFlow, PyTorch, Scikit-learn **April 2024**

- Developed a deep learning–based intrusion detection system using CNN, LSTM, and Transformer architectures.
- Preprocessed and normalized NSL-KDD and CIC-IDS datasets for binary attack classification.
- Implemented feature encoding, model training, evaluation, and prediction for detecting malicious network activities.

Shelf Inventory Management System | Python, MySQL, HTML, CSS **Dec 2025**

- Developed an inventory management system to monitor and manage shelf stock efficiently.
- Implemented product addition, update, deletion, and stock tracking using CRUD operations.
- Designed a MySQL database and user interface for easy inventory monitoring and management.

Author Portfolio Website | HTML, CSS, JavaScript, Supabase, Vercel **Sep 2026**

- Designed and developed a responsive personal portfolio website for an aspiring poet and writer.
- Integrated Supabase to manage book information and cover images dynamically.
- Deployed the website using Vercel with sections for the author's profile, poetry, book, journey, and contact information.

CERTIFICATIONS

- Data Analyst 101 (Microsoft Powered) – Simplilearn SkillUp
- Python for Data Science Certification – Infosys
- Software Engineering Virtual Experience Program – Electronic Arts (Forage)
- IBM Enterprise Design Thinking Practitioner – IBM SkillBuild
